

November 9, 1976

PROPOSED 1977 DEUEL CONFERENCE

Deuel Conference Program Title: "Intracellular and Extracellular Lipid Interactions"

1. Thursday a.m., March 3, 1977:

How does lipoprotein structure influence exchange and net transfer of lipids between lipoproteins and cells?

Chairman:	Edwin Bierman	
Speaker:	Richard Jackson	(40 minutes)
Discussants:	Angelo Scanu	(10 minutes)
	G. Graham Shipley	(10 minutes)
	Alex Nichols	(10 minutes)

2. Thursday evening, March 3, 1977:

How does plasma membrane structure influence the exchange and net transfer of lipids between lipoproteins and cells?

Chairman:	John Glomset	
Speakers:	Demetrios Papahadjopoulos (Lipid-protein interactions; cell & vesicle fusion)	(30-40 minutes)
	Zanvil Cohn (Endocytosis)	(30-40 minutes)
Discussants:	Edward Dennis	(10 minutes)
	Richard Anderson	(10 minutes)

3. Friday a.m., March 4, 1977:

How is intracellular transfer of lipids regulated?

Chairman:	Gordon Gould	
Speakers:	K. Wirtz and D. Zilversmit	(60 minutes)
Discussants:	Robert Ockner	(10 minutes)
	Terence Scallen	(10 minutes)
	Sandra Erickson	(10 minutes)

4. Friday evening, March 4, 1977:

What are the roles of phospholipases, lysophosphatides and acyl transferases in the regulation of cellular composition and function?

Chairman:	James Mead	
Speaker:	William Lands	(40 minutes)
Discussants:	Mosely Waite	(10 minutes)
	Roger Illingworth	(10 minutes)
	To be designated	(10 minutes)

5. Saturday a.m., March 5, 1977:

How is cellular cholesterol concentration regulated?

Chairman:	George Popják	
Speakers:	Alan Fogelman and Peter Edwards	(60 minutes)
Discussants:	Dan Steinberg	(10 minutes)
	Erwin Mosbach	(10 minutes)
